EDUCATION

Boğaziçi University , Istanbul, Turkey <i>Computer Engineering B.Sc., Mathematics B.Sc.</i>	2018–2023
University of Maryland <i>Mathematics, Ph.D.</i>	2023–

PUBLICATIONS

-
1. **An Alexandrov Topology for Maximal Cohen-Macaulay Modules** (w/ Mert Akdenizli, Baran Çetin, and Özgür Esentepe),
Journal of Pure and Applied Algebra, Volume 228, Issue 1

RESEARCH EXPERIENCE

Working Group on the Arithmetic of Elliptic Curves Supervisor: Mohammad Sadek, Sabancı University	June '22 – November '22 <i>Arithmetic Statistics</i>
Counting Varieties with Complex Multiplication Supervisor: Ayhan Günaydın, Boğaziçi University	October '21 – August '22 <i>Arithmetic Geometry</i>
PhD Research Supervisor: Dori Bejleri, University of Maryland	December '24 – <i>Number Theory</i>

SERVICE

Teaching Assistant for Calculus II (Fall '23, Fall '24), Calculus III (Spring '24), Differential Equations (Spring '25), Linear Algebra (Spring '26).

Instructor for Introduction to Math Modeling and Probability (Fall '25).

TALKS

Local and Global Root Numbers of Elliptic Curves Summer School on Applied Arithmetic	June 10, 2022
Torsion Subgroups of Elliptic Curves Directed Reading Program Turkey Symposium 2021	September 12, 2021
From quadratic functions to modular functions UMD Student Algebra and Number Theory Seminar	December 9, 2025
First Chern Classes UMD Student 6–Functor Formalism Seminar	March 26, 2026
